Dear Parents,

Over the past few years we have found that over the summer students going into the fourth grade lose some of the math skills and concepts they have learned in third grade. In order for your child to have a good start in the fourth grade, we have put together a Math Packet that covers these skills.

As summer comes to an end and you begin to think about school again in August, have your student complete the math packet. This packet is a requirement and is to be turned in to Sr. Linda on the first day of school.

May you have a safe and happy summer.

Sincerely,  
Mrs. Shilling  
Mrs. Boxer  
Sr. Linda

## EQUIVALENT FRACTIONS SHEET 1

### NUMBER LINES

If two fractions are equivalent, it means that they are equal, or represent the same amount.

Use these fraction number lines to help you work out the equivalent fractions.
